Carnival and Public Celebration - Indoor

Category- and Venue-Specific Information Template

Application Reference	[Assigned by STERAS]
Event Category	Carnival and Public Celebration
Venue Setting	Indoor
Template Version	STERAS-T13-CAR-IN-v1.0

Purpose: Complete this template together with the STERAS Core Event Application. Do not repeat general event, organiser, operational, crowd-management, medical or evacuation information already provided in the Core template. Answer only the additional questions below that arise from this carnival and public celebration category and indoor venue setting.

Risk focus for this template: amusement rides and interactive attractions, temporary booths and structures, food hygiene and cooking hazards, crowd concentration around attractions, indoor fire safety and restricted access to ride or equipment areas.

Extraction rule: Type answers only inside the Organiser Response cells. Keep each response in its original field so STERAS can map it reliably to the auto-filled application form.
