Exhibition, Convention and Promotional Event - Outdoor Fixed-Site

Category- and Venue-Specific Information Template

Application Reference	[Assigned by STERAS]
Event Category	Exhibition, Convention and Promotional Event
Venue Setting	Outdoor Fixed-Site
Template Version	STERAS-T11-EXP-OF-v1.0

Purpose: Complete this template together with the STERAS Core Event Application. Do not repeat general event, organiser, operational, crowd-management, medical or evacuation information already provided in the Core template. Answer only the additional questions below that arise from this exhibition, convention and promotional event category and outdoor fixed-site venue setting.

Risk focus for this template: outdoor booth and temporary-structure stability, weather exposure, electrical and generator safety, live demonstrations, heavy displays or machinery, visitor concentration, ground conditions and public-site interfaces.

Extraction rule: Type answers only inside the Organiser Response cells. Keep each response in its original field so STERAS can map it reliably to the auto-filled application form.
