

STERAS

Sports and Recreational Event - Outdoor Route-Based

Category- and Venue-Specific Information Template

Application Reference	[Assigned by STERAS]
Event Category	Sports and Recreational Event
Venue Setting	Outdoor Route-Based
Template Version	STERAS-T06-SPT-OR-v1.0

Purpose: Complete this template together with the STERAS Core Event Application. Do not repeat general event, organiser, operational, crowd-management, medical or evacuation information already provided in the Core template. Answer only the additional questions below that arise from this sports and recreational event category and outdoor route-based venue setting.

Risk focus for this template: participant injuries, route and surface hazards, road and traffic interaction, checkpoint control, participant tracking, route-based medical coverage, weather exposure and safe movement along the course.

Extraction rule: Type answers only inside the Organiser Response cells. Keep each response in its original field so STERAS can map it reliably to the auto-filled application form.

A. Route Sport Format and Participants

Questions in this section capture the sport format, participant flow and route-specific participation details that are not repeated in the Core template.

Question / Field ID	Organiser Response
T06-A01 / ROUTE_SPORT_TYPE What type of route-based sport or recreational activity will be conducted? <i>Response format: Fun run / Marathon / Road race / Cycling / Walking event / Triathlon or multisport / Other</i>	Type: [Select / enter]
T06-A02 / EVENT_FORMAT Describe the participation or competition format used on the route. <i>Response format: Mass start / Wave start / Time trial / Competitive race / Recreational participation / Other + short details</i>	Format: [Select / enter] Details: [Enter details]
T06-A03 / ROUTE_DISTANCE_LAPS State the total course distance and whether participants complete a single route, repeated laps or multiple route segments. <i>Response format: Distance in km + Single route / Laps / Multiple segments</i>	Total distance (km): [0.0] Route structure: [Select / enter] Number of laps / segments: [0 / N/A]
T06-A04 / PARTICIPANT_FLOW How many participants may be on the route at one time, and how will they be released onto the course? <i>Response format: Whole number + start method + wave interval if applicable</i>	Maximum participants on route: [0] Start method: [Select / enter] Wave interval: [Enter time / N/A]
T06-A05 / PARTICIPANT_DIVISIONS State the participant divisions or categories that will use the route, such as age group, distance category, bicycle class, skill level or competition division. <i>Response format: Short list; enter N/A if no divisions are used</i>	[Enter response]
T06-A06 / EXPECTED_PACE_SPEED State the expected participant pace or speed range relevant to route control and separation. <i>Response format: Minimum and maximum pace/speed; include units</i>	Minimum pace / speed: [Enter value + unit] Maximum pace / speed: [Enter value + unit]
T06-A07 / ROUTE_SAFETY_BRIEFING Will participants receive a route-specific safety briefing before starting? If Yes, describe the route hazards, traffic rules or conduct requirements that will be covered.	Route safety briefing: [Yes / No] Briefing content: [Enter details]

Response format: Yes / No + briefing content	
T06-A08 / MINOR_PARTICIPANTS Will any route participants be minors? If Yes, describe the supervision, guardian or team-management arrangements that apply while they are on the course. Response format: Yes / No + arrangements if Yes	Minors participating: [Yes / No] Supervision arrangements: [Enter details]
T06-A09 / ROUTE_OFFICIALS_MARSHALS How many marshals, referees, officials or route controllers will be deployed, and which role has authority to stop or divert participants for an unsafe route condition? Response format: Whole number + role	Route officials / marshals: [0] Safety-stop / diversion authority: [Enter role]
T06-A10 / FORESEEABLE_ROUTE_HAZARDS Identify the main sport-specific hazards reasonably foreseeable while participants travel along the route. Response format: Short list or 2-5 sentences	[Enter response]

B. Route Configuration, Road Interaction and Course Control

Questions in this section focus on the physical course, checkpoints, intersections, traffic controls and route inspection required for a moving sports event.

Question / Field ID	Organiser Response
T06-B01 / START_FINISH_ROUTE Identify the route start point and finish point, and state whether they are the same location. Response format: Start location + finish location + Yes/No	Start point: [Enter location] Finish point: [Enter location] Same start / finish location: [Yes / No]
T06-B02 / CHECKPOINTS_CONTROL_POINTS How many checkpoints, timing points or route-control points will be used, and where will they be located? Response format: Whole number + location list	Number of checkpoints / control points: [0] Locations: [Enter locations]
T06-B03 / PUBLIC_ROAD_USE Will participants use or cross any public road, traffic lane or junction during the event? If Yes, identify the affected roads or junctions. Response format: Yes / No + affected roads/junctions	Public road / junction use: [Yes / No] Affected roads / junctions: [Enter details]

T06-B04 / ROAD_CLOSURE_TRAFFIC Will any road or traffic lane require full closure, partial closure, temporary holding or diversion? Describe the planned traffic-control arrangement. <i>Response format: Yes / No + closure/control method</i>	Road / lane control required: [Yes / No] Control arrangement: [Enter details]
T06-B05 / VEHICLE_PARTICIPANT_SEPARATION Where vehicles may remain near the route, how will moving participants be separated from normal traffic, support vehicles and parked vehicles? <i>Response format: Barriers / cones / lane separation / marshals / escort / other</i>	Separation method: [Select / enter] Details: [Enter details]
T06-B06 / INTERSECTIONS_CROSSINGS Describe how road intersections, pedestrian crossings, driveways or other crossing points along the route will be controlled while participants pass. <i>Response format: Control method + responsible personnel</i>	Crossing control method: [Enter details] Responsible personnel: [Enter role / group]
T06-B07 / ROUTE_SURFACE_HAZARDS Describe the route surface and any known hazards such as potholes, uneven ground, steep slopes, sharp turns, drains, gravel, construction works or water crossings. <i>Response format: Surface type + hazard list / locations</i>	Route surface: [Select / enter] Known hazards / locations: [Enter details]
T06-B08 / ROUTE_INSPECTION_SWEEP How and when will the route be inspected before participant release, monitored during use and swept/cleared after the final participant? <i>Response format: Responsible role + pre-event inspection + final sweep method</i>	Inspection responsible: [Enter role / name] Pre-event inspection: [Enter details] Final sweep / clearance: [Enter details]

C. Participant Tracking, Route Support and Outdoor Safety

Questions in this section capture participant accountability, route support points, weather exposure, communications and safety controls distributed along the course.

Question / Field ID	Organiser Response
T06-C01 / PARTICIPANT_TRACKING How will participants be tracked or accounted for from the start until they finish, withdraw or are removed from the route? <i>Response format: Bib/barcode / timing chip / manual checkpoint record / GPS / other + details</i>	Tracking method: [Select / enter] Details: [Enter details]

T06-C02 / WITHDRAWAL_CUTOFF Describe the procedure for participants who withdraw, fail to reach a checkpoint or exceed the event cut-off time. <i>Response format: Cut-off time/rule + withdrawal/sweep procedure</i>	Cut-off time / rule: [Enter details] Withdrawal / sweep procedure: [Enter details]
T06-C03 / HYDRATION_REFUEL_POINTS State the number and locations of hydration, refuelling or rest points provided along the route. <i>Response format: Whole number + locations</i>	Number of support points: [0] Locations: [Enter locations]
T06-C04 / ROUTE_MEDICAL_POINTS State the number and locations of first-aid or medical stations positioned along the route, and indicate the maximum route section expected to be covered by each point. <i>Response format: Whole number + locations + coverage</i>	Number of medical points: [0] Locations: [Enter locations] Coverage / spacing: [Enter details]
T06-C05 / EMERGENCY_ROUTE_ACCESS Identify the designated emergency-vehicle access or interception points along the route, especially sections where direct vehicle access may be limited. <i>Response format: Location list + limited-access notes</i>	Emergency access points: [Enter locations] Limited-access sections: [Enter details / N/A]
T06-C06 / SUPPORT_ESCORT_VEHICLES Will support, lead, sweep, escort or technical vehicles operate on or beside the route? If Yes, identify their roles and how they will interact safely with participants. <i>Response format: Yes / No + vehicle roles + separation/control</i>	Support / escort vehicles: [Yes / No] Vehicle roles: [Enter details] Participant interaction controls: [Enter details]
T06-C07 / ROUTE_COMMUNICATION How will marshals, checkpoints, medical teams and the event control point communicate across the full route? <i>Response format: Radio / phone / messaging system / other + fallback</i>	Primary communication: [Select / enter] Fallback communication: [Enter details]
T06-C08 / WEATHER_MONITORING How will weather conditions be monitored across the route, and who has authority to shorten, divert, pause or stop the event because of unsafe weather? <i>Response format: Monitoring method + decision authority</i>	Weather monitoring method: [Enter details] Decision authority: [Enter role]
T06-C09 / HEAT_EXPOSURE What route-specific controls will be used to manage heat, sun exposure and dehydration, particularly on exposed or long-distance sections?	[Enter response]

<i>Response format: Shade / hydration / misting / timing / additional rest points / other</i>	
T06-C10 / LOW_LIGHT_VISIBILITY Will any participant be on the route before sunrise, after sunset or during low-light conditions? If Yes, describe visibility controls for participants, route staff and vehicles. <i>Response format: Yes / No + lighting / reflective / visibility controls</i>	Low-light route use: [Yes / No] Visibility controls: [Enter details]
T06-C11 / TEMPORARY_ROUTE_STRUCTURES Will temporary start/finish gantries, arches, timing structures, tents, barriers, fencing, stages or other structures be installed along the route? <i>Response format: Yes / No + type/location if Yes</i>	Temporary route structures: [Yes / No] Type / location: [Enter details]
T06-C12 / PUBLIC_PROTECTED_AREAS Does any section of the route pass through government land, a public park, recreation reserve, forest/protected area or another site requiring separate authority permission? <i>Response format: Yes / No + site/authority if Yes</i>	Public / protected area: [Yes / No] Site / authority: [Enter details]
T06-C13 / HIGH_RISK_MULTISPORT Is the route event classified as high-risk/large-scale, or does it contain a water-based or other specialised route segment requiring additional safety controls? <i>Response format: Yes / No + classification / specialised segment</i>	High-risk / specialised route: [Yes / No] Basis / specialised segment: [Enter details]

D. Conditional Supporting Evidence

Do not prepare separate STERAS templates for these documents. Upload the evidence only when the stated condition applies, in addition to the core supporting documents already requested in the Core Event Application.

Document / Reference	When it is required / What to upload
T06-DOC-01 Route, Checkpoint and Traffic Evidence	Required for this route-based template. Upload a detailed route plan showing the start/finish, checkpoints/control points and relevant route features. Where public roads or traffic are affected (T06-B03/T06-B04), also upload the traffic-management plan, road-closure application and diversion plan where required.
T06-DOC-02 Participant Tracking and Route Medical Evidence	Required to support T06-C01 to T06-C05. Upload the participant-tracking/checkpoint plan and a route support plan identifying medical-station locations, emergency access/interception points and relevant hydration/refuelling points.

T06-DOC-03 Temporary Structure / Public Site Evidence	Required when T06-C11 = Yes and/or T06-C12 = Yes. Upload relevant temporary-structure permits/approvals, structural drawings, installation details and engineer certification where required, together with permission from the relevant land, park, recreation, forestry or site authority.
T06-DOC-04 High-Risk / Specialised Route Evidence	Required when T06-C13 = Yes or when requested by the reviewing authority. Upload applicable public-liability insurance, medical-provider agreement, ambulance arrangement and professional security plan. For water-based segments, also provide the water-safety plan, rescue arrangement, participant equipment list and operator certification where applicable.
