

STERAS

Entertainment and Performance Event - Outdoor Route-Based

Category- and Venue-Specific Information Template

Application Reference	[Assigned by STERAS]
Event Category	Entertainment and Performance Event
Venue Setting	Outdoor Route-Based
Template Version	STERAS-T03-ENT-OR-v1.0

Purpose: Complete this template together with the STERAS Core Event Application. Do not repeat general event, organiser, programme, crowd-management, security, medical, evacuation or general severe-weather information already provided in the Core template. Answer only the additional questions below that arise when an entertainment/performance event itself moves along a defined outdoor route.

Risk focus for this template: moving performers and floats, mobile stages and production equipment, vehicle/performer interaction, route clearance, road and junction control, spectator separation along the route, mobile electrical systems, special effects, checkpoints and emergency access across a moving event footprint.

Extraction rule: Type answers only inside the Organiser Response cells. Keep each response in its original field so STERAS can map it reliably to the auto-filled application form.

A. Moving Performance and Route Configuration

This section describes how the entertainment or performance moves, how performers and mobile units are organised, and how the production enters, travels along and exits the route.

Question / Field ID	Organiser Response
T03-A01 / PERFORMANCE_TYPE What type of route-based entertainment or performance will be conducted? <i>Response format: Performance parade / Marching band / Mobile live performance / Float procession / Promotional entertainment caravan / Other</i>	Type: [Select / enter]
T03-A02 / MOVING_PERFORMANCE_FORMAT Describe how the performance will move along the route, including whether entertainment continues while moving or only at designated stopping points. <i>Response format: 2-5 sentences</i>	[Enter response]
T03-A03 / PERFORMER_CREW_COUNTS State the number of local performers, foreign performers and production/technical crew involved in the route-based performance. <i>Response format: Whole numbers; enter 0 if none</i>	Local performers: [0] Foreign performers: [0] Production / technical crew: [0]
T03-A04 / FOREIGN_PERFORMERS Are any foreign performers, artists or performance groups involved? If Yes, state their nationality or group details. <i>Response format: Yes / No + details if Yes</i>	Foreign performers involved: [Yes / No] Details: [Enter details]
T03-A05 / MOVEMENT_UNITS List the types and quantities of moving performance units that will travel along the route, such as floats, mobile stages, decorated vehicles, support vehicles or walking groups. <i>Response format: List each type + quantity</i>	[Enter response]
T03-A06 / PROCESSION_FORMATION Describe the planned order and spacing of performers, floats, vehicles and support units while travelling along the route. <i>Response format: 2-5 sentences</i>	[Enter response]
T03-A07 / PERFORMANCE_STOPS Will the event stop at designated locations for performances? If Yes, state the number of stops and describe what happens at each type of stop.	Stops used: [Yes / No] Number of planned stops: [0] Stop activities: [Enter details]

<i>Response format: Yes / No + stop count + details</i>	
T03-A08 / PERFORMER_POSITIONING Describe where performers will be positioned during movement, such as on foot, on floats, on mobile stages or inside/on vehicles. <i>Response format: Identify each performer group and position</i>	[Enter response]
T03-A09 / AUDIENCE_INTERACTION Will performers directly interact with spectators along the route, enter spectator areas or distribute items? If Yes, describe how the interaction will be controlled. <i>Response format: Yes / No + controls if Yes</i>	Interactive element: [Yes / No] Controls: [Enter details]
T03-A10 / MOBILE_PROPS_SCENERY Will large props, banners, scenery, costumes with extended dimensions or moving performance equipment travel along the route? If Yes, describe them. <i>Response format: Yes / No + details if Yes</i>	Large/mobile props used: [Yes / No] Details: [Enter details]
T03-A11 / ROUTE_ENTRY_EXIT_SEQUENCE Describe how performers and mobile units will assemble, enter the route, maintain formation, and disperse after reaching the finish area. <i>Response format: 2-6 sentences</i>	[Enter response]

B. Mobile Production, Float and Vehicle Safety

This section focuses on floats, mobile stages, performance vehicles, onboard sound/lighting/power systems, equipment securing and movement-specific technical safety.

Question / Field ID	Organiser Response
T03-B01 / FLOAT_VEHICLE_DETAILS For each float, mobile stage or performance vehicle, state its type and approximate dimensions. <i>Response format: For each unit: type, quantity, length, width and height where known</i>	[Enter response]
T03-B02 / PERSONS_ON_MOVING_UNITS Will performers or crew travel on moving floats, stages or vehicles? If Yes, state the maximum number on each unit and describe	Persons carried on moving units: [Yes / No] Numbers and fall-prevention controls: [Enter details]

handrails, restraints or other fall-prevention measures. <i>Response format: Yes / No + persons per unit + controls</i>	
T03-B03 / DRIVER_OPERATOR_CONTROL Describe how drivers/operators, route marshals and production personnel will communicate and coordinate the movement of performance vehicles or floats. <i>Response format: 2-5 sentences; enter N/A if no motorised unit</i>	[Enter response]
T03-B04 / MOBILE_SOUND_SYSTEM Describe sound/PA equipment installed on or travelling with mobile units, including speaker placement and how equipment is secured. <i>Response format: 1-5 sentences</i>	[Enter response]
T03-B05 / MOBILE_LIGHTING_RIGGING Describe any lighting, truss, elevated decorations, LED screens or rigging mounted on floats, vehicles or mobile stages. <i>Response format: 1-5 sentences; enter N/A if none</i>	[Enter response]
T03-B06 / MOBILE_POWER_SUPPLY Describe the electrical supply used by mobile performance units, including batteries, generators, temporary distribution, fuel location and isolation method. <i>Response format: 2-6 sentences</i>	[Enter response]
T03-B07 / EQUIPMENT_SECURING Describe how speakers, instruments, props, scenery, cables and other production equipment will be secured against movement, vibration or falling while travelling along the route. <i>Response format: 2-5 sentences</i>	[Enter response]
T03-B08 / ROUTE_CLEARANCE_HAZARDS Identify any height, width or overhead-clearance hazards that could affect floats, vehicles, props or elevated equipment, such as bridges, cables, trees, signs or gantries. <i>Response format: List each known hazard + affected location + control; enter None if none identified</i>	[Enter response]
T03-B09 / MOVEMENT_SPEED_STOP_CONTROL State the planned movement speed and describe how a float, vehicle or performance unit will be instructed to slow down or stop if a hazard occurs. <i>Response format: Speed + stop/communication procedure</i>	Planned maximum movement speed: [Enter value] Stop / communication procedure: [Enter details]

T03-B10 / SPECIAL_EFFECTS Will smoke effects, lasers, flame effects, fireworks, pyrotechnics or other special effects be used while moving or at route stops? If Yes, identify the effect and where it will be used. <i>Response format: Yes / No + effect + location</i>	Special effects used: [Yes / No] Effect / location details: [Enter details]
T03-B11 / PRESTART_INSPECTION_BREAKDOWN Describe the pre-start inspection for floats, vehicles and mobile production equipment, and explain how a disabled or unsafe unit will be removed or isolated without blocking the route. <i>Response format: Inspection responsible person + checks + breakdown/removal procedure</i>	Pre-start inspection: [Enter response] Breakdown / removal procedure: [Enter response]

C. Route, Traffic and Spectator Interface Controls

This section captures route-specific conditions such as road use, closures, checkpoints, spectator interfaces, controlled crossings and emergency access. General crowd, security, medical and evacuation plans remain in the Core template.

Question / Field ID	Organiser Response
T03-C01 / ROUTE_START_END_DISTANCE State the route start point, finish point and total route distance. <i>Response format: Start location + finish location + distance in km</i>	Start point: [Enter location] Finish point: [Enter location] Total route distance (km): [0.0]
T03-C02 / ROUTE_SEQUENCE List the roads, streets, public spaces or designated paths used by the event in travel order. <i>Response format: Ordered route sequence</i>	[Enter response]
T03-C03 / ROUTE_PHYSICAL_CONSTRAINTS Identify route sections with narrow widths, steep slopes, sharp turns, uneven surfaces or other physical constraints that may affect performers, floats or vehicles. <i>Response format: Location + constraint + control; enter None if none identified</i>	[Enter response]
T03-C04 / ROAD_CLOSURE Will any public road or traffic lane require full, partial or rolling closure for the event? If Yes, identify the affected route sections. <i>Response format: No / Full closure / Partial closure / Rolling closure + locations</i>	Road closure required: [Select / enter] Affected sections: [Enter details]

T03-C05 / TRAFFIC_DIVERSION Describe the traffic-diversion arrangement for affected roads and junctions, including how vehicles will be redirected around the moving event. <i>Response format: 2-6 sentences; enter N/A if no traffic diversion is required</i>	[Enter response]
T03-C06 / CHECKPOINT_CONTROL_POINTS List the route checkpoints, marshal/control points and designated performance stops, and state the purpose of each. <i>Response format: Location + type + purpose</i>	[Enter response]
T03-C07 / SPECTATOR_SEPARATION Describe how spectators will be separated from moving performers, floats and vehicles along route sections where close contact could occur. <i>Response format: Barrier/buffer method + locations where used</i>	[Enter response]
T03-C08 / CONTROLLED_CROSSINGS Will pedestrians or vehicles be allowed to cross the route while the event is operating? If Yes, identify the controlled crossing points and how crossing will be managed. <i>Response format: Yes / No + crossing locations + control method</i>	Controlled crossings used: [Yes / No] Locations / controls: [Enter details]
T03-C09 / EMERGENCY_ROUTE_ACCESS Identify how emergency vehicles can enter, travel across or bypass the route while the procession or moving performance is operating. <i>Response format: Emergency access points, reserved lanes or bypass arrangements</i>	[Enter response]
T03-C10 / ROUTE_TRACKING Describe how the organiser will track the location or progress of performer groups, floats and key mobile units along the route. <i>Response format: Tracking method + responsible team</i>	[Enter response]
T03-C11 / DRONE_OPERATION Will drones be operated along any part of the route or above route stops? If Yes, describe the operating area and whether flight is planned over performers or spectators. <i>Response format: Yes / No + operating area + over-people Yes/No</i>	Drone operation: [Yes / No] Operating area: [Enter details] Planned flight over people: [Yes / No]
T03-C12 / GOVERNMENT_PUBLIC_LAND Does any part of the route, start/finish area or official stopping point use government land, a public park or another controlled public site? If Yes, identify the relevant areas.	Government/public controlled site used: [Yes / No] Areas / authority: [Enter details]

<i>Response format: Yes / No + areas/authority if known</i>	
T03-C13 / TICKETED_VIEWING_ZONES Will any official route-side viewing area, grandstand or performance stop require tickets or controlled paid entry? If Yes, identify the locations. <i>Response format: Yes / No + locations if Yes</i>	Ticketed/paid viewing zones: [Yes / No] Locations: [Enter details]
T03-C14 / HIGH_RISK_LARGE_SCALE Is the route-based entertainment event being treated as high-risk or large-scale because of crowd size, route complexity, moving structures/vehicles or special effects? If Yes, state the basis. <i>Response format: Yes / No + basis if Yes</i>	High-risk / large-scale: [Yes / No] Basis: [Enter details]

D. Conditional Supporting Evidence

Do not prepare separate STERAS templates for these documents. Upload the evidence only when the stated condition applies, in addition to the core supporting documents already requested in the Core Event Application.

Document / Reference	When it is required / What to upload
T03-DOC-01 Route-Based Event Evidence	Required for all T03 applications. Upload a detailed route plan, checkpoint plan, traffic-control plan, participant/performer or mobile-unit tracking arrangement, and medical-station locations appropriate to the route.
T03-DOC-02 Public Road / Road-Closure Evidence	Required when T03-C04 indicates public-road use or a closure. Upload the road-closure application where required, traffic-management plan and traffic-diversion plan.
T03-DOC-03 Foreign Performer Evidence	Required when T03-A04 = Yes. Upload PUSPAL approval and relevant immigration or professional-visit documents, where applicable.
T03-DOC-04 Temporary / Mobile Structure Evidence	Required when temporary stages, canopies, platforms or other structures are incorporated into floats, route stops or start/finish areas. Upload relevant temporary-structure approval/permit, structural drawings, installation details and engineer certification where required.
T03-DOC-05 Pyrotechnics / Special-Effects Evidence	Required when T03-B10 includes fireworks, pyrotechnics or flame effects. Upload the activity declaration, operator appointment, relevant approval/certification, safety-zone plan and insurance.

T03-DOC-06 Drone Operation Evidence	Required when T03-C11 = Yes. Upload drone-operation approval and flight plan where required.
T03-DOC-07 Ticketing Evidence	Required when T03-C13 = Yes. Upload ticketing information, a ticket sample and applicable state entertainment-duty documentation, where required.
T03-DOC-08 Government / Public Site Permission	Required when T03-C12 = Yes. Upload permission from the relevant land, park, forestry or site authority for the affected route, start/finish area or stopping point.
T03-DOC-09 High-Risk / Large-Scale Evidence	Required when T03-C14 = Yes or when requested by the reviewing authority. Upload public-liability insurance, medical-provider agreement, ambulance arrangement and professional security plan.
T03-DOC-10 Other Authority Evidence	Upload any additional permit, approval or technical evidence specifically requested by the relevant Malaysian authority based on the final route, activities and risk profile.
